Brno, Czech Republic · Slovak citizen · Remote

Date of birth: 30. 3. 1998

WORK EXPERIENCE

iOS Developer

JAN 2026 – Currently

FormCoach – Prague, Czech Republic

Building the FormCoach fitness app in SwiftUI. Implemented WidgetKit, HealthKit, Live Activities and full localization, plus a centralized error-handling layer covering every failure state. Product-oriented MVVM codebase.

UI iOS Developer

JUNE 2025 – JAN 2026

O2 Slovakia, s.r.o. – Bratislava, Slovak Republic

Owned the Design System for the whole O2 client platform under very high code-quality standards. Built a Swift script for handling and exporting design tokens, wrote UI and unit tests for both packages, and measurably improved the workflow of the rest of the mobile team.

iOS Developer

SEP 2024 – FEB 2025

BILLDU LTD, organizačná zložka – Bratislava, Slovak Republic

Developed multiple applications helping small businesses invoice, schedule and communicate with customers. REST APIs, local persistence (SQLite), MVVM.

iOS Developer

NOV 2023 – JULY 2024

Freelance

Delivered projects across contact management, navigation, e-commerce and internal tooling, including consumer apps with hundreds of thousands of users. Consumed and helped shape REST APIs; integrated SQLite, MySQL and MongoDB back ends. Used **Firestore as the back end** on several of these projects — Firestore / Realtime Database, Authentication and Cloud Messaging — with **Firestore Analytics** for product events and **Crashlytics** for post-release crash monitoring and triage.

iOS Developer

FEB 2022 – NOV 2023

Matee

Rewrote a legacy internal codebase into a modern SwiftUI alternative, built new views and set up automated UI tests. Contributed to the shared cross-platform layer on **Kotlin Multiplatform (~1.5–2 years)** with early hands-on Compose Multiplatform (~6 months). Integrated **Firestore Analytics** and **Crashlytics** into release builds and used the event and crash data to prioritise fixes. Jira, sprint delivery.

Independent iOS Development

2020 – FEB 2022

Own projects & freelance

Built and shipped my own iOS apps end-to-end while learning Swift, UIKit and later SwiftUI, REST integration and App Store release. Where my product mindset and code-quality habits started.

Dive Base Manager

JUNE 2016 – SEP 2021

Wobbegong Beach Dive Club – Senec, Slovak Republic

OWN PROJECTS

Apex Ryde — first-person iOS motorcycle simulator: friction-circle tire model, real 1-N-2-3-4-5-6 sequential gearbox, quickshifter ignition-cut timing,

SKILLS

Swift (5+ yrs)

SwiftUI

UIKit (5+ yrs)

Objective-C

Kotlin Multiplatform (~2 yrs)

Kotlin (reading; writing basics)

Compose Multiplatform (basics)

Python

Firebase (~2.5 yrs)

Crashlytics / Firebase Analytics

App Store Connect / TestFlight (6+ yrs)

Git / GitHub Actions

Gradle (working knowledge)

SPM / CocoaPods

Swift Testing / XCTest

REST API

SQLite, MySQL, MongoDB

Linux / shell scripting

AI dev tools – Claude, Copilot

RELEASE & MONITORING

Full release ownership since 2020: signing, App Store Connect submissions and review, TestFlight internal and external distribution, phased rollouts.

Crash reporting and product analytics with Crashlytics and Firebase Analytics; Xcode Organizer / MetricKit for regressions.

SECURITY-ADJACENT

Code signing, entitlements and framework packaging on iOS. Mach-O and Dex/Smali fundamentals. Root/jailbreak landscape from the user side — rooted and flashed Android devices as a teenager. Obfuscation and anti-tamper concepts. Hacking-lab exercises.

Learning, not yet professional experience — stated plainly on purpose.

wheelie mechanics. Zero third-party dependencies, written almost entirely in one train ride and one evening.

SideQ — production SwiftUI app in Swift 6 with strict concurrency, five local SPM packages, SwiftData and StoreKit 2. Shipped iteratively, including a full social release and German localization.

Worldwanderer — travel app shipped to the App Store.

EDUCATION

Stredná odborná škola Ivanka pri Dunaji SEP 2013 – JUNE 2017
Agricultural business – Cynology · Ivanka pri Dunaji, Slovak Republic

LANGUAGES

English – Advanced (C1)
Slovak – Proficiency (C2)
Czech – Proficiency (C2)

INTERESTS OR HOBBIES

Motorcycles, gym and combat sports, reading, and building low-level side projects for the pleasure of understanding how something actually works.

DRIVING LICENCE
